MIDGET

Atomzing Nozzle for a wide range of applications

ATOMIZING NOZZLE

The “M” or “Midget” series is designed to meet the needs of a very small, efficient, inexpensive nozzle. They are particularly effective in applications where the mounting possibility is limited. Both models produce a very fine spray, but the “MW” is a little coarser than the “M”. Both come standard with a 80-meshed strainer monel for easy cleaning.
The “M” nozzles are ideal for agricultural and industrial applications that require a similar fog atomizer ung with low water consumption. They are often used for humidification in greenhouses and in the mist cooling for pigs and poultry.
The “MW” with a spray angle of 90 ° – 160 ° has many industrial applications where maximum coverage is required in a small space. It is often found in greenhouses for fogging and keeping the young plants wet.

Other sizes on enquiry.

MATERIAL
Models completely made of brass
416 SS would be available per request

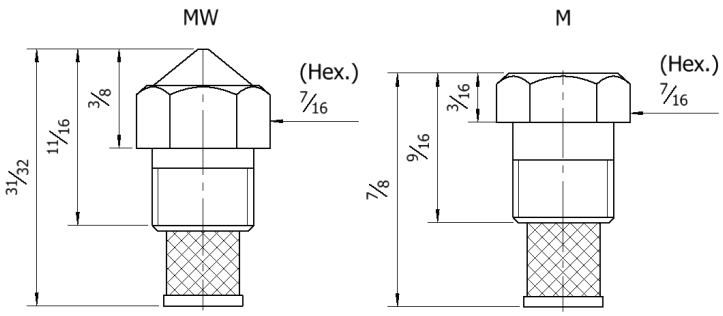

PIPE CONNECTION
1/8 “NPT male

SPRAY ANGLES
“M”: 80 °
“MW”: 90 °, 120 °, 160 °

DIMENSIONS

CAPACITIES

Minimum Capacity: Gallons Per Hour						
Nozzle No.	Function Pressure – By Inch-pound limit					
	25	30	40	60	80	100
M-0.5	–	–	–	–	.45	.50
M-1	–	–	.63	.78	.90	1.00
M-2	1.00	1.10	1.30	1.50	1.80	2.00
M-3	1.50	1.60	1.90	2.30	2.70	3.00
M-5	2.50	2.70	3.20	3.90	4.50	5.00
MW-B	2.30	2.50	2.90	3.50	4.10	4.60
MW-C	3.20	3.50	4.10	4.90	5.70	6.40
MW-D	5.00	5.50	6.30	7.70	8.90	10.00
MW-E	7.20	8.00	9.20	11.20	13.00	14.50
